Where to  
Hear,  
Rock/Pop/Etc.,  
By Day

Agnish writes introspective, subdued, lo-fi indie-rock songs in which he incorporates fuzzed-out feedback, kids' toy samples, drum machine beats, and straightforward, melodic guitar work. His lyrics cover the usual lonely-guy stuff—love, loss, longing—and sometimes reflect his admiration for a guy named Jesus. He's collaborated with Sufjan Stevens in the past and is also more deserving of all that attention. With Denison Witmer, Saxon Shore, and Ben and Vesper.
